

Rainbow Village by Amanda Jane Ogden

Instruction 1: The box for your village

To watch the video: click [here](#)

You will need:

- A cardboard box about 24 x 38 x 18cm
- Used white printer paper
- Glue and a glue-spreader
- Scissors

What to do:

1. If there are flaps at the top of the box, cut them off.
2. Cut from the top to the base on three corners of the box.
3. Measure the white paper so you have a piece the height of the box (plus a bit to go over the top).
4. Glue the back of the paper and stick it to the box.
5. Keep gluing on paper until all the inside of the box is white.

It might look a bit like this:
