

Rainbow Village by Amanda Jane Ogden

Instruction 23: A park fence

To see the video, click [here](#)

You will need:

- Magazines or gardening catalogues or brochures to cut up
- Grey recycled card
- Black felt pen
- Pencil and ruler
- Glue and spreader

What to do:

1. On the wrong side (unprinted side) of the card, use your ruler and pencil to draw long strips 2.5cm wide.
2. Rule a line 5mm from the long edge. Fold the card strip on this line.
3. Use your black felt pen to draw from the fold to the edge, all the way along.
4. Repeat steps 1 to 3 to make enough fences. You need two long strips for each fence.
5. Stick the striped part of the fences (the railings) together, back to back.
6. Now spread glue under the fence on the 5mm folded parts and stick the fences in place. Leave a gap at the entrance to the park.

It might look a bit like this:
