

Rainbow Village by Amanda Jane Ogden

Instruction 27: A hill

To see the video, click [here](#)

You will need:

- Cardboard packaging used for packing fruit
- White recycled paper
- Glue and spreader
- Scissors

What to do:

1. Cut out the packaging to make a rounded shape that will lie flat.
2. (If you can't find rounded packaging, you can make scrunched up balls of paper and glue them together into a pile in a rounded shape.)
3. Glue the rounded shape into a corner of your park.
4. Tear strips of white paper, then tear these into shorter strips.
5. Spread the glue on the back (printed side) of the paper and glue the strips over the rounded shape. The strips should cross over each other and go down onto the box all round the shape.
6. Continue until you have covered the shape with two or three layers of paper.
7. Allow the hill to dry.

It might look a bit like this:
